SUMMARY

Full-stack developer with 15+ years of professional development experience including PHP integrations, payment webhook handling, and third-party API development, combined with 1.5+ years of dedicated MERN stack development. Specialized in JavaScript, TypeScript, and payment integrations across Stripe, Clickbank, and Clickfunnels. I care deeply about code quality, user experience, and shipping software that makes a real difference. Currently seeking remote junior to mid-level full-stack or backend web development roles.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, PHP, React, Next.js, Node.js, Express.js, GraphQL, HTML5, CSS3, Tailwind CSS, Prisma ORM

Databases: MongoDB, Mongoose, MySQL, PostgreSQL, SQL, Sequelize ORM, Prisma ORM

Payments & APIs: Stripe, Clickbank, Clickfunnels, JWT, OAuth 2.0, REST APIs, Swagger/OpenAPI, Resend

DevOps & Tools: Docker, Docker Compose, DigitalOcean, Netlify, Git, GitHub, GitHub Actions, CI/CD Pipelines, Container Registry, Code Review, Agile Methodologies, AI-Assisted Development

EXPERIENCE

Contract Web Developer | Precision Media Labs | Remote

Mar 2008 – Present

- Built and deployed a production SaaS membership platform using Next.js, Payload CMS, React, and Docker with tiered access permissions serving real paying customers
- Integrated Clickfunnels webhook payment notifications to automate membership access control and permission gating
- Developed and maintained PHP legacy systems and third-party API integrations including Stripe, Clickbank, and email service providers
- Implemented CI/CD pipeline using GitHub Actions to build and push Docker images to DigitalOcean Container Registry with automated production deployments via Docker Compose
- Sole developer responsible for all frontend, backend, infrastructure, and deployment decisions in an Agile environment with frequently evolving requirements

PROJECTS

Full portfolio with live demos at richardstrain.com/portfolio

Client Membership Platform | Next.js, Payload CMS, React, Docker, Clickfunnels, Node.js

Production SaaS built for a live business with real paying customers. Features tiered access controlled by Clickfunnels webhook payment handling, Docker containerized backend, and membership permission gates.

Auth Service | Node.js, TypeScript, JWT, OAuth 2.0, RBAC

Standalone authentication microservice with JWT access/refresh token rotation, OAuth 2.0 social login, email verification, password reset, and role-based access control. Documented with Swagger/OpenAPI.

Stripe Payment API | Node.js, TypeScript, Stripe, Webhooks

Production-grade REST API handling payment intents, refunds, and Stripe webhooks with full idempotency guarantees. Documented with Swagger/OpenAPI.

Wealthen | React, Next.js, Node.js, TypeScript, PostgreSQL, Prisma

Privacy-first financial wellness platform with CSV-based bank data import, subscription membership tiers, and spending analytics dashboard.

EDUCATION

MERN Full Stack Web Development Certification

Apr 2024 – Oct 2024

University of Central Florida | Orlando, FL
